

THE ADVANTAGES OF NATURAL GAS

√ efficient

√ economical

√ clean

√ environmentally
sound

YOU CAN DEPEND ON NATURAL GAS

now and in the
decades ahead!

IF GAS ODOR IS SLIGHT:

1. Open windows and doors to ventilate the area.
2. Check pilot lights. Re-light only if you know how.
3. Call the gas company if gas odor persists.

IF GAS ODOR IS STRONG:

1. DO NOT light matches.
2. DO NOT turn light switches ON or OFF.
3. DO NOT use the telephone.
4. If possible, notify everyone in the building to leave immediately.
5. CALL the gas company from a neighbor's phone.
6. DO NOT re-enter your home until the gas company has told you it's safe to do so.

THINK SAFETY FIRST

CUSTOMER'S RESPONSIBILITY

The customer assumes all the responsibility for the gas piping from the outlet side of the gas meter and all piping inside the residence or building. The customer is responsible for all appliances and proper venting. At the time of connection, the customer will be notified of any unsafe conditions found in the residence or building by the Utility. The Utility reserves the right to terminate or discontinue service until such conditions are made safe and can pass Utility Standards.

It's up to you to use
appliances safely
and to use safe
gas appliances!

**. . . AVOID
ACCIDENTS**

**CALL THE
GAS COMPANY**

**SAFETY IS NO ACCIDENT.
IT IS A PLAN FOR LIVING.**

**ARE YOU PLANNING ANY
UNDERGROUND EXCAVATION???**

What everyone should know
